

# Rotations (F)

A collection of 9-1 Maths GCSE Sample and Specimen questions from AQA, OCR, Pearson-Edexcel and WJEC Eduqas.

Name:	
Total Marks:	

1. Here are two flags.

Flag F is rotated onto Flag G.

Describe the rotation fully.

[2]

2. Describe fully the single transformation that maps triangle A onto triangle B.

[2]

3. Rotate the triangle  $90^\circ$  clockwise so that point C moves to point D.

[2]

4. Draw patterns like the given ones in each of the other 2 sections, so that the completed pattern has rotational symmetry of order 4 about O.

[2]

5. On the grid, rotate the triangle  $90^\circ$  clockwise about  $(0, 0)$ .

[2]

## CREDITS AND NOTES

Question	Awarding Body
1	OCR
2	Pearson Edexcel
3	AQA
4	WJEC Eduqas
5	Pearson Edexcel

### **Notes:**

These questions have been retyped from the original sample/specimen assessment materials and whilst every effort has been made to ensure there are no errors, any that do appear are mine and not the exam board s (similarly any errors I have corrected from the originals are also my corrections and not theirs!).

Please also note that the layout in terms of fonts, answer lines and space given to each question does not reflect the actual papers to save space.

These questions have been collated by me as the basis for a GCSE working party set up by the GLOW maths hub - if you want to get involved please get in touch. The objective is to provide support to fellow teachers and to give you a flavour of how different topics "could" be examined. They should not be used to form a decision as to which board to use. There is no guarantee that a topic will or won't appear in the "live" papers from a specific exam board or that examination of a topic will be as shown in these questions.
