

Circles, Arcs and Sectors (H & F)

A collection of 9-1 Maths GCSE Sample and Specimen questions from AQA, OCR, Pearson-Edexcel and WJEC Eduqas

Name:	C. Beale
Total Marks:	

1. The rectangle ABCD represents a park.

The lines show all the paths in the park.

The circular path is in the centre of the rectangle and has a diameter of 10m.

Calculate the shortest distance from A to C across the park, using only the paths shown.

$$\sqrt{60^2 + 40^2} = 72.11 + \frac{\pi \times d}{2} = 5\pi$$

$$- \frac{10}{62.11} = 77.87$$

..... m [6]

2. The arc ABC is a quarter of a circle with centre O and radius 4.8 cm.

AC is a chord of the circle.

Work out the area of the shaded segment.

Give your answer correct to 3 significant figures.

$$\frac{4.8 \times 4.8}{2} = 11.52$$

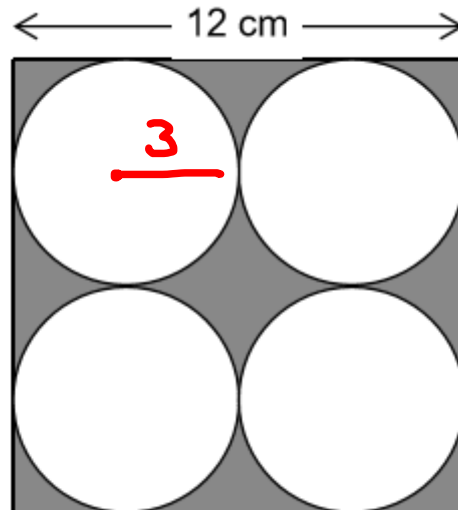

$$\frac{\pi \times 4.8^2}{4} = 18.086$$

$$18.086 - 11.52 = 6.566$$

[3]

3. Four identical circles just fit inside a square as shown.

$$\pi \times 3^2 \times 4 = 36\pi$$

$$12 \times 12 = 144$$

$$144 - 36\pi$$

Not drawn accurately

Work out the area of the shaded section.

Give your answer in terms of π .

$$144 - 36\pi \quad \text{or} \quad 36(4 - \pi)$$

[4]

4.

CREDITS AND NOTES

Question	Awarding Body
1	OCR
2	Pearson Edexcel
3	AQA

Notes:

These questions have been retyped from the original sample/specimen assessment materials and whilst every effort has been made to ensure there are no errors, any that do appear are mine and not the exam board s (similarly any errors I have corrected from the originals are also my corrections and not theirs!).

Please also note that the layout in terms of fonts, answer lines and space given to each question does not reflect the actual papers to save space.

These questions have been collated by me as the basis for a GCSE working party set up by the GLOW maths hub - if you want to get involved please get in touch. The objective is to provide support to fellow teachers and to give you a flavour of how different topics "could" be examined. They should not be used to form a decision as to which board to use. There is no guarantee that a topic will or won't appear in the "live" papers from a specific exam board or that examination of a topic will be as shown in these questions.
