 $\leq L <$ 
..... 13.5 .....
[2]

2. Jim rounds a number,  $x$ , to one decimal place.

The result is 7.2

Write down the error interval for  $x$ .

$7.2$ 
1 dp 0.1
↗ UB 7.25  
↘ LB 7.15
..... 7.15
 $\leq x <$ 
..... 7.25 .....
[2]

3. Paul won a race with a time of 71.3 seconds.

This time,  $t$ , is to the nearest tenth of a second.

Complete the error interval due to rounding.

### **Notes:**

These questions have been retyped from the original sample/specimen assessment materials and whilst every effort has been made to ensure there are no errors, any that do appear are mine and not the exam board s (similarly any errors I have corrected from the originals are also my corrections and not theirs!).

Please also note that the layout in terms of fonts, answer lines and space given to each question does not reflect the actual papers to save space.

These questions have been collated by me as the basis for a GCSE working party set up by the GLOW maths hub - if you want to get involved please get in touch. The objective is to provide support to fellow teachers and to give you a flavour of how different topics "could" be examined. They should not be used to form a decision as to which board to use. There is no guarantee that a topic will or won't appear in the "live" papers from a specific exam board or that examination of a topic will be as shown in these questions.
